

Makes Any Feeding Program Economic, Safe and Effective!

Why Feed Revolution™ Concentrate?

Revolution™ Concentrate is fortified with **ReStore™**, a patented technology developed by veterinarians to enhance the natural digestive processes of the horse.

Revolution™ Concentrate helps prevent feed induced stress. It makes any commercial feed formulation safer to use, as well as more nutritionally effective.

Revolution™ Concentrate, through the action of **ReStore™**, helps prevent situations that can lead to chronic weight loss, colic, laminitis, chronic diarrhea and gastric ulcers.

Revolution™ Concentrate increases digestive efficiency by as much as 30%. This means that your horse will need to eat less forage and commercial feed to remain healthy, happy and active. A **Revolution™ Concentrate** based program is not only safer to feed but cheaper to feed as well!

Biovance's Complimentary Health Management Program

Not All Commercial Feed Formulations Are The Same!

Let Us Help You Make The Right Choice!

There are well over 100 brands of commercial feeds available in the market today. Every one is different. Every one claims to be the right choice for your horse. But is it?

Revolution™ Concentrate use and substitution rates are affected by nutrient content of the commercial feed and the forages you feed. Biovance maintains a constantly updated nutrient profile of most of the commercially available feeds and has the capability to predict performance on custom formulations.

To maximize response to Revolution™ Concentrate use, we offer two options:

1. Call our toll free number (1-877-246-7500) to speak to a Biovance nutritionist or veterinarian. This service is available during business hours Monday through Friday.
2. Visit our website (www.restoreforhorses.com) and click on the "Health Management Program" icon. Complete and submit the on-line questionnaire and Biovance will respond with our recommendations within 48 hours.

REVOLUTION™ CONCENTRATE

An Equine Oral Supplement for All Types of Horses

U.S. Patent Nos. 6,858,239 & 5,077,068; Australian Patent No. 2002364540; Patents Pending

FEEDING DIRECTIONS

Revolution™ Concentrate is designed to be fed as a supplement to your current commercial feed program. It can be fed in place of a portion of your commercial feed or in addition to it, depending upon the needs of the individual horse. The following table provides a guideline for Revolution™ Concentrate use.

COMMERCIAL FEED CATEGORIES	SUGGESTED REVOLUTION™ CONCENTRATE USE RATES
Senior	Replace 2 lbs of current feed with 1.5 lbs of Revolution™ Concentrate (4.5 scoops daily)
Special needs (<i>Laminitic, Cushingoid, Colic prone, etc.</i>)	Replace 2 lbs of current feed with 1 lb of Revolution™ Concentrate (3 scoops daily)
Performance	Replace 2 lbs of current feed with 1 lb of Revolution™ Concentrate (3 scoops daily)
Growth (<i>Weaning to 2 years</i>)	Replace 1.5 lbs of current feed with 1 lb of Revolution™ Concentrate (3 scoops daily)

* 3 scoops = 1 lb of Revolution™ Concentrate. Scoop is provided with bag. Feeding directions: Mix Revolution™ Concentrate with your commercial feed. Daily feed rates can be split into AM & PM feedings.

Important:

- Revolution™ Concentrate must be fed along with forage and grain, and horses must have access to clean fresh water at all times.
- To maintain freshness, reseal Revolution™ Concentrate package after each feeding.
- Store in a cool, dry place.
