

The First Step In Protecting Horses At Risk.

Why Feed Revolution-Rx™?

Revolution-Rx™ is fortified with **ReStore™**, a patented technology developed by veterinarians to enhance the natural digestive processes of the horse.

Revolution-Rx™ quickly stabilizes hindgut fermentation, the key to normal equine digestion and nutrient assimilation.

Revolution-Rx™ simultaneously supplies your horse with essential nutrients and “metabolites” normally produced by a healthy hindgut fermentation. This accelerates your horse’s recovery, while helping to prevent a number of other problems that occur when a horse is put at risk.

Revolution-Rx™ has been clinically proven to effectively aid in the treatment of a number of problems linked to fermentation failure, such as colic, founder, chronic diarrhea, weight loss and gastric ulcers, with noticeable responses being seen in less than 30 days!

Biovance’s Complimentary Health Management Program

Not All Commercial Feed Formulations Are The Same!

Let Us Help You Make The Right Choice!

There are well over 100 brands of commercial feeds available in the market today. Every one is different. Every one claims to be the right choice for your horse. But is it?

Revolution™ Concentrate use and substitution rates are affected by nutrient content of the commercial feed and the forages you feed. Biovance maintains a constantly updated nutrient profile of most of the commercially available feeds and has the capability to predict performance on custom formulations.

To maximize response to Revolution™ Concentrate use, we offer two options:

1. Call our toll free number (1-877-246-7500) to speak to a Biovance nutritionist or veterinarian. This service is available during business hours Monday through Friday.
2. Visit our website (www.restoreforhorses.com) and click on the “Health Management Program” icon. Complete and submit the on-line questionnaire and Biovance will respond with our recommendations within 48 hours.

REVOLUTION-Rx™

An Equine Oral Supplement for All Types of Horses

U.S. Patent Nos. 6,858,239; 5,077,068; Australian Patent No. 2002364540; Patents Pending

FEEDING DIRECTIONS

The amount of Revolution-Rx™ to feed will depend on body condition, activity level, forage quality and reproduction status.

Typically the feeding rate of Revolution-Rx™ will be 3 lb per head daily. Revolution-Rx™ is designed to complement most commercial feeds. It can therefore be substituted on a pound for pound basis. If the situation warrants, it can also be fed at recommended rates in addition to your current feed. It is recommended that the amount fed each day be divided into 2 feedings. Revolution-Rx™ must be fed along with 1 to 2 lb of long stem hay (or equivalent pasture) per 100 lb of body weight.

Espanol

Típicamente el nivel de entrada de la Revolución-Rx™ sea diario por cabeza de 3 libras. Revolución-Rx™ se diseña complementar las alimentaciones más comerciales. Puede por lo tanto ser substituido en una libra para la base de la libra. Si las autorizaciones de la situación, él se pueden también alimentar en las tarifas recomendadas además de su alimentación actual. Se recomienda que la cantidad alimentó cada día esté dividida en 2 alimentaciones. Revolución-Rx™ debe ser alimentado junto con 1 a 2 libras del heno largo del vástago o del pasto equivalente por 100 libras de peso corporal.

INGREDIENTS

Processed Grain By-products, Forage Products, Dried Condensed Corn Fermentation Solubles, Corn Oil, Yeast Culture, Glutamic Acid, Calcium Carbonate, Monocalcium Phosphate, Dicalcium Phosphate, Salt, Magnesium Oxide, Magnesium Sulfate, Potassium Sulfate, L-Threonine, Calcium Pyruvate, Calcium Propionate, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Zinc Sulfate, Copper Sulfate, Manganese Sulfate, Cobalt Carbonate, Ferrous Sulfate, Ethylenediamine Dihydriodide, Sodium Selenite, Choline Chloride, Niacin Supplement, Folic Acid, Biotin, d-Calcium Panto-thenate, Thiamine Mononitrate, Riboflavin Supplement, Pyridoxine Hydrochloride, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Ascorbic Acid, Citric Acid (as a preservative), Natural Mixed Tocopherols, Rosemary Extract, Natural and Artificial Flavors.
